

SeaQuest brings the beach and ocean to your classroom. We visit with coastal creatures, SeaQuest discovery activities and experiments, games, crafts and fun leaders to inspire your group to explore and learn.

Visit SeaQuest on the beach for a fun day of discovery activity on the beach in Porthcawl. We organise every aspect of your visit and have all the equipment to hand. Let your pupils explore and learn in the great outdoors!

Our fantastic Beach Wheelchair is now available to ensure that everyone can enjoy our sessions!

SeaQuest is part of CREDU Charity Ltd. The SeaQuest Coastal Science and Discovery Centre will have its home in the new Maritime Centre development, pictured below, along with Porthcawl Sea Cadets and Welsh Surfing Federation.

Other facilities will include: Community Space, Health and Fitness Centre, Bistro, Training Cafe, Group Accommodation, Performing Arts, Waverider and much more.

Coastal Science and Discovery For Schools

SeaQuest Programme - Key Stage 2

1. Beach Discovery in your classroom

This workshop can be delivered on its own or before a Beach Discovery Day at the Beach.

Meet our coastal creatures, magnifiers and microscopes, rock pool skills, binoculars, food chains, adaptations, games, craft, beach safety and more.

2. Beach Discovery Day At The Beach

Only book this after a beach in your classroom workshop.

SeaQuest organise a fun day of activity on the beach including rock-pooling, scavenger hunt, beach art, beach games and beach Safety.

3. Coastal Crusader Save Our Seas in your classroom

To uncover the sensations of our seas and its marine life. SeaQuest activities and experiments with marine litter, recycling, sustainable energy and make an ocean promise.

4. Coastal Crusader Save Our Seas Day At The Beach

SeaQuest organise a fun day of activity on the beach including beach clean, litter survey, beach games and marine litter art.

5. Dolphins, Sharks and Senses

A voyage of discovery into the lives of these fascinating animals. Activity bases with echo location, shark vision, teeth, sounds of the sea, feed the shark, mermaid purses, plankton and more.

6. SeaQuest scientist

A marine themed workshop full of SeaQuest Science experiments and challenges. Children gain practical science skills investigating solids liquids, gases, materials, microscopes, dissolving, sinking, floating and more.

7. Shipwrecks and STEM Project

SS Samtampa disaster and other Porthcawl wrecks. A workshop to investigate materials shapes and objects that float or sink and build a boat challenge.

SeaQuest Programme - Foundation Phase

1. A Day at the Seaside in your classroom

This workshop can be delivered on its own or before a Beach Discovery day at the Beach. We bring the beach to your classroom. Meet our crabs, prawns and anemones. A discovery of coastal creatures, beach treasures, litter and beach safety.
