

Lollipop Stick Bird Caller

You need

- 2 lollipop sticks
- An elastic band
- A piece of paper 2 cm longer and slightly wider than the sticks

How to make it

- Fold the paper between the lollipop sticks. It should be slightly smaller in width than the sticks and about 1-2cm longer.
- The extra length should be hanging out the end.
- Wrap an elastic band around one end, binding the sticks and paper together.
- Blow against the side of the bird caller near the open end of the sticks against the crease to make a sound.
