

# Potato Footprint Trail

## You need

Ask an adult to help you find:

- A paintbrush
- A potato
- Some paints
- Some paper or card

## How to make it

- Carefully cut the potato in half
- On each half, carefully carve a footprint of your favorite animal.
- Paint the footprint bit with your paintbrush and press it gently down on the paper.

If you don't have a paintbrush – just you can always use a sponge or dip into paint on a plate!

**After playing don't forget to wash your hands!**  
Have fun!

Can you guess who left these prints?
